

**RMGS A-Level Geography from September 2020**  
**Advanced Notice of Geography Fieldwork 2021**

Dear parent / guardian of all potential A-Level Geography students,

As part of your son/daughter's Geography A-level studies, we will be taking our students on a residential field trip to Dorset (dates TBA).

This fieldtrip is an essential part of their A-Level study in Geography as the course covers the compulsory element of 4 days of fieldwork. As well as fulfilling the requirements of these compulsory physical and human geography fieldwork skills, the trip provides the opportunity to collect data for their individual investigation (worth 20% of their Geography A-Level) and is also an invaluable opportunity to experience the geography we have studied in the classroom in real life.

The cost of the fieldtrip is likely to be in the region of £250. This includes all accommodation, food, travel, insurance and some equipment hire. The accommodation is in a residential study centre in Swanage, which is clean, comfortable, and with good food. Further details about the times of departure and return, the accommodation and the work to be covered will be available at a later date.

The fieldtrip can be paid for in a lump sum or in instalments. Please sign the slip below to acknowledge that you have read and understood this letter. If you feel that there are likely to be problems in paying for the fieldwork course **please contact the school at the earliest opportunity.**

If you have any further queries about the trip, please do not hesitate to contact me.

Yours faithfully,

Mrs E. Milne  
Head of Geography
