

KS3 MFL

Before starting at the school, students are asked to express a preference for one of the three languages available at RMGS.

Every effort is made to ensure that the student's choice is either available to him/her as his/her first language in Year 7 or is taken up as his/her second language in Year 8.

Language classes are lively and students are encouraged to develop their listening, speaking, reading and writing skills. The students are assessed on a regular basis, with particular emphasis placed on vocabulary and grammar learning. Students are encouraged to undertake their own learning outside of the classroom, by using websites such as Linguascope and Duolingo.
